PROFESSIONAL SUMMARY

Computer Engineering graduate with practical experience in software engineering, AI-powered applications, full-stack web development, mobile application development, game development, and workflow automation. Experienced in designing and developing intelligent software solutions, interactive applications, and user-focused digital products using modern technologies and development frameworks.

Skilled in Python, Java, C#, Flutter, Django, Unity, AI integration, computer vision, database management, Docker, AI agent development, and workflow automation using n8n and Ollama. Passionate about building scalable software, intelligent systems, and interactive experiences that solve real-world problems through technology and innovation.

TECHNICAL SKILLS

Programming: Python, Java, C++, C#, JavaScript, Dart

Web: HTML5, CSS3, Vue.js, Django

Mobile: Flutter, Android, XML

AI/ML: PyTorch, TensorFlow, Computer Vision, OCR, Deep Learning

AI Agents: n8n, Ollama, Workflow Automation, LLM Integration

Databases: MySQL, SQL

DevOps: Git, GitHub, Docker

Data Analysis: Pandas, NumPy, Data Visualization

Game Development: Unity, C#, Game Systems Development, Gameplay Programming, UI Design for Games, OOP

PROFESSIONAL EXPERIENCE

Libya Guide Company – Full Stack Developer (2025)

- Contributed to web application development.
- Worked on frontend and backend tasks.
- Developed and integrated AI-driven workflows and automation solutions using modern AI technologies, supporting process optimization and intelligent user interactions.

BetroNas Real Estate Company – Call Center Representative (2022)

- Managed customer support and issue resolution.

Bina Incubator – Coordinator (2020)

- Supported operations and workflow coordination.

EDUCATION

Bachelor of Computer Engineering

Istanbul Bilgi University

Graduation: 2026

PROJECTS

EcoSort –Educational Recycling Game (Unity, C#)

Plantly – AI Plant Disease Detection Application (Flutter, PyTorch)

Self-Verification Application (Java, Android Studio)

Marketing Website RTL Conversion (HTML, CSS, JavaScript)

Alfarawi Business Platform (Django, Python)

LANGUAGES

Arabic (Native)

English (Fluent)

Turkish (Intermediate)
